L.9 To finish, I need for you to do an exercise to measure mobility. I'm going to show you how to do the following exercise. I would like you to try to do it. If you think that you cannot do it or that it is too dangerous, please tell me so.

While standing up, please try to balance on one foot without holding onto or grabbing anything. You can start with either foot; then we'll try with the other one.

I'm going to time it, so I'll tell you when to start and when to finish (TEN SECONDS). We can stop whenever you feel you are going to lose your balance.

Let's start with the foot on which you feel safest.

**Right foot**

- Missing or injured extremity ..... 94
- Tried, but couldn't do it ..... 95
- Did not try for safety reason ..... 96
- Can't stand up ..... 97
- Refused ..... 99

Did the test in:

Seconds ..... |\_\_|\_\_|

**Left foot**

- Missing or hurting extremity ..... 94
- Tried, but couldn't do it ..... 95
- Did not try for safety reason ..... 96
- Can't stand up ..... 97
- Refused ..... 99

Did the test in:

Seconds ..... |\_\_|\_\_|
